

ENVIRONMENTAL POLICY

Purpose and Scope

Civilcast recognizes its legal and moral obligations to reduce the impact of our operations on the environment. We are committed to establishing measureable objectives and targets, and continuously improving our environmental performance.

Environmental Objectives

- To meet or exceed Environmental Acts and Regulations, applicable Codes of Practice and Industry Standards;
- To comply with the requirements of ISO 14001:2015;
- Minimise waste by evaluating operations and ensuring they are as efficient as possible;
- Minimise toxic emissions through the selection and use of our fleet and the source of our power requirements;
- Actively promote recycling both internally and amongst our customers and suppliers;
- Source and promote a product range to minimise the environmental impact of both production, installation and distribution;
- Use an accredited program to offset the greenhouse gas emissions generated by our activities.

This Policy will be implemented through a systematic environmental management program that will be monitored, inspected, audited and upgraded for continuous improvement.

All managers and workers are expected to work cooperatively to effectively implement this Policy.
