

HEADWALLS

Civilcast offer a range of standard Headwalls to suit most Stormwater Pipes. Constructed in precast concrete for strength and durability, Headwalls are the ideal solution for retaining earth around stormwater pipe outlets.

ITEM #	ITEM DESCRIPTION	EXPOSURE	OVERALL HEIGHT	OVERALL WIDTH
HEPF090-150	Pipe Headwall, Single cell precast concrete with cathedral KO, full base to suite 90/150mm pipe - Extra Small (Fi reinforced)	B2	280	550
HEPF225-375	Pipe Headwall, Single cell, precast concrete with cathedral KO to suit 225/300/375/DN450mm pipe - Small (Fi reinforced)	B2	700	1575
HEPF450-600	Pipe "FR" headwall, Single cell precast concrete with cathedral KO to suit DN450/DN525/DN600mm pipw - Medium and designed to AS3600	B2	1040	1670
HEPF675-750	Pipe Headwall, Single cell, precast concrete with cathedral KO to suit 675/750mm pipe - Large (Fi reinforced)	B2	1410	2020
HEPF825-900	Pipe Headwall, Single cell, precast concrete with cathedral KO to suite 825/900mm pipe - Extra Large (Fi reinforced)	B2	1410	2020
HEP1050	Pipe Headwall - Single cell precast concrete to suit DN1050mm pipe and designed to AS3600	B1	1700	3220
HEP1200	Pipe Headwall - Single cell precast concrete to suite DN1200mm pipe with weep holes in wings and designed to AS3600	B1	1700	3220
