Letter from Sales & Marketing Manager

Well, here we are in the third quarter of 2020 already. The world seems to be reeling from an unprecedented start to the year with many industries trying to find their feet again. Whilst the COVID 19 pandemic caused havoc across the world, it has certainly sharpened us all up and caused us to review our market positions.

Thanks to the well managed response to the pandemic in Australia, the civil market has remained strong with a number of projects being fast tracked. This is providing excellent opportunities to all involved in the building & construction industry and overall, keeping the economy alive.

Despite the challenges of the past months, Civilcast is continuing to expand with a focus on completing set up of our new Victorian Branch which is now open for business. We are also excited to announce expansion of our Emu Plains facility to include a large distribution yard for pipe, culverts & sewer chambers. This will be operational in the next few weeks and will facilitate our complete package offering.

Once again, a huge thanks to all our loyal customers that continue to prove the benefits of using Civilcast. Our team is committed to providing a high level of customer service to you to help us grow together.

Please enjoy this quarter's newsletter.

Brian Lee,
Sales & Marketing Manager

WE ARE PLEASED TO ANNOUNCE THAT CIVILCAST IS **NOW** **OPEN FOR BUSINESS** IN VICTORIA!

In June 2020 we secured a 5000m² property in Oakleigh South VIC. Civilcast Victoria is being operated by our VIC Branch Manager, Steve Arkcoll. Along with our Large Stocks, Fast Lead Times & Wealth of Knowledge, we're excited to now offer our high level of service to the Victorian market.

For any VIC Sales Enquiries please don't hesitate to contact Steve on 0488 505 077 or our Head Office on 1300 01 CAST (2278)

WE ARE SUPPLYING QUAKERS HILL STP

The Quakers Hill Sewage Treatment Plant has undergone a major expansion to increase the capacity and capability of the existing plant. Civilcast was engaged by Diona to supply a range of products including custom precast chambers to house large flow meters, sewer chambers, custom grating and steel covers, precast slabs, etc. Once again, meeting the challenges of a demanding project program.

FACTS & FIGURES

Product Supplied: Custom & Standard precast pits, precast slabs & encasements, Precast sewer shafts, custom & standard steel, aluminium & ductile covers & grating, Custom galvanised steel platforms & ladders.

Precast Concrete: 143 Tonne

Steel & Ductile: 25 Tonne

Deliveries: 40

PREMIUM CUSTOMER PICKUP EXPERIENCE

Due to our 'drive-thru' warehouse, the average pickup time at Civilcast is under 30 minutes. Along with this you will avoid the freight charge and be able to enjoy access to free refreshments while you wait!

SUSTAINABILITY UPDATE

With an enhanced focus on the environment, governments and sustainability organisations across the globe are continually looking to our businesses to contribute to reducing the carbon footprints and overall impact on our environment.

Maintenance of our ISO9001 accreditation is a key driver here at Civilcast, a key component of this being environmental sustainability. With a team constantly striving for new ways to become more environmentally focused a concerted effort is being made within Civilcast to achieve zero steel waste.

Steel waste quantity is constantly growing and we are pleased to announce that 100% of steel waste in the second quarter was either re-used or recycled, with zero going to land fill.

Maintaining this strong awareness of sustainability has provided a positive base for Civilcast to be considered on large tier one projects, such as Snowy 2.0, WestConnex and Western Sydney Airport.
